Welcome to VIETNAM!

Vietnam is the cradle of wet-rice civilization in which water plays a vital role in spirituality, culture, history, and territorial protection of the country.

From the North to the South Vietnam, 2,360 rivers have created variety of crop and fishing patterns, types of livelihoods as well as literature, folk-songs, temples and pagodas, and festivals associated with water. From ancient times, Vietnamese people have treasured water resources. Water has been considered as motherhood, motherland, and the precious source of life that need to be specially protected.

Travelling to Vietnam and joined with Vietnam International Water Week - VACI 2019, you will be able to not only access to integrated water resources management policies of the country, but also experience a unique culture imbued with national identity.

Welcome message

The magnitude and scale of global water crisis are unprecedented and require us to think and act proactively and, by doing so, turning these into opportunities to transform our sector.

It is with great pleasure to invite you to attend [Vietnam International Water Week -VACI 2019](#) on 22nd - 25th March, 2019 in Hanoi.

Vietnam wAter Cooperation Initiative (VACI) is the global platform to share and co-create innovative water solutions with particular emphasis on Vietnam and tropical water issues. Under auspice of Ministry of Natural Resources and Environment (MONRE) of Vietnam VACI has been growing since 2012 and brings together thought leaders who are pioneering new solutions; it uncovers new scientific findings and technological breakthroughs that could be transformative for the water industry; it connects the world's leading water compnies and professionals. Uniquely, it attracts decision makers across the entire water value chain that allows global water industry to collaborate on local business opportunities in Vietnam and the region.

The past editions of VACI was honored to have presence of H.E. Deputy Prime Minister of Vietnam Hoang Trung Hai and attracted a record of nearly 5,000 participants and visitors of more than 500 organizations in over 40 countries. VACI2019 will continue to be held as an integrated event: the Exhibition connects you to the people with the right solutions and business forum provides truly business opportunities, while it is fully integrated with the conference and various exciting networking events to ensure delegates and exhibitors have the maximum opportunity to engage with regional water industry and explore local culture.

I look forward to seeing you in Hanoi in March 2019!

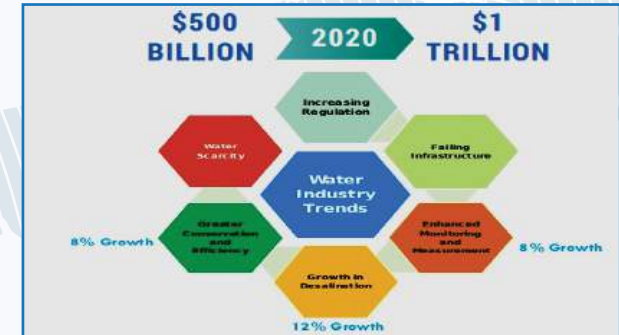

Dr. Tong Ngoc Thanh
Chairman & Director General of NAWAPI
Ministry of Natural Resources and
Environment (MONRE) of Vietnam

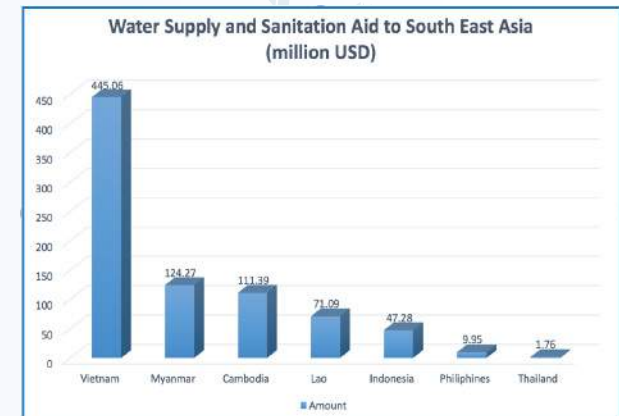

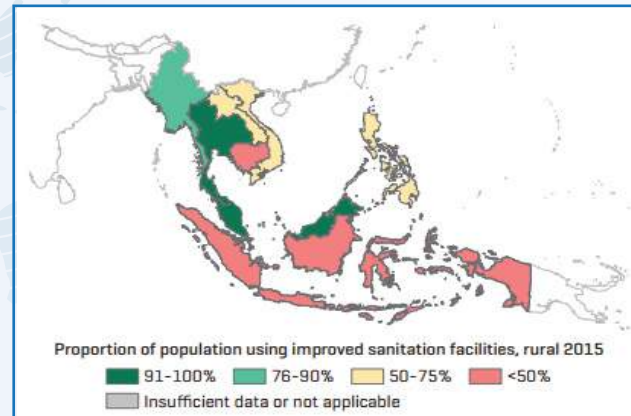

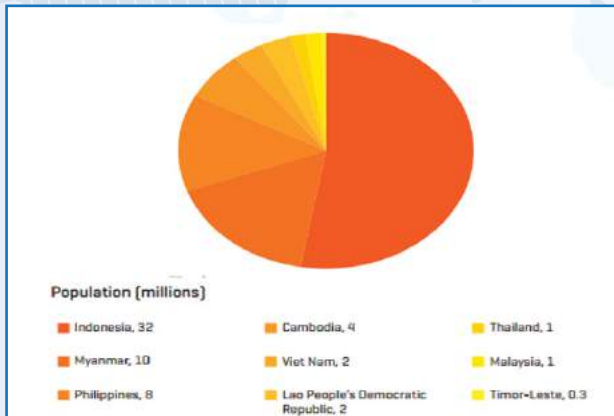

Dr. Oyun Sanjaasuren

VACI2019's Thematic Framework and Cross-cutting Issues

Working with nature to improve water quality and the environment

The Earth is facing with an increasing risk of water scarcity as well as the deterioration of water quality caused by overheating growth of population and economy, and the lack of comprehensive water management systems. VACI2019 would like to bring stakeholders together to join hands in protecting and preserving our water resources towards the Sustainable Development Goals (SDGs).

The thematic framework of VACI2019 covers six water-related current affairs:

Main Themes and Contribution to SDGs, COP and Sendai DRR Summit:

CLIMATE

Water security and Climate change

- SDG links: SDG 13, SDG 11.5, COP 21-22, Sendai DRR Summit
