

## **Fully funded PhD position opportunities in the Marine Research Institute in Klaipeda University (Lithuania)**

The 2020 call for admission is now open for Doctoral degree program in Ecology and Environmental Science at the Marine Research Institute in Klaipeda University (Lithuania). We would like to draw your attention to the following specific topics:

1. [Analysis of the hydrology and land-based contaminant delivery to the coastal lagoons and effective strategies for nutrient mitigations](#)
2. [Ecological modeling for eutrophication studies in three European coastal waterbodies](#)

The positions are fully covered by a monthly scholarship for a period of 4 years. Other benefits (like travel, extra course expenditure coverages, etc.) are included. Based on performance, a research assistant job position will be offered.

Deadline for applications: September 1, 2020. Information on the topics and admission procedure could be found here <http://apc.ku.lt/en/index.php/doctoral-studies-2020/>

For other information on the topic or general questions, you can contact [natalja.cerkasova@apc.ku.lt](mailto:natalja.cerkasova@apc.ku.lt) or [georg.umgiesser@apc.ku.lt](mailto:georg.umgiesser@apc.ku.lt).
